EDUCATION

Bachelor of Technology in Electronics and Telecommunication Engineering,

2021- 2025

Pimpri Chinchwad College Of Engineering, Pune

SKILLS

Programming Languages: JavaScript (Expert), TypeScript (Proficient), HTML5 (Expert), CSS3 (Expert), SQL (Intermediate), Java (Proficient), Python(Intermediate)

Database and Language: Experience in MySQL, SQL (Intermediate), AWS (Basic)

Frameworks/Libraries: Working experience in React JS, Bootstrap, Tailwind CSS and jQuery (Intermediate)

Version Control Tools and IDE: Git, Github, Visual Studio Code, IntelliJ IDEA

UI/UX Design: Figma, Canva

Course Work: Database and management system, Object-Oriented Programming, Data Structures, and Algorithms

Soft Skills: Collaboration, Communication, Planning, Teamwork, Time Management, Leadership

Work EXPERIENCE

React.js Intern Celebal Technologies

May 2024 – Jul 2024, *India*

- Developed various web applications using React.js, achieving a high project success rate.
- Used React.js to create component-based architecture, improving maintainability.
- Optimized front-end performance, increasing the website's performance score by 85%.
- Implemented Redux and Axios for state management and API integration, enhancing data handling efficiency.

Web Development Trainee (MERN Stack) Webstack Academy

Jul 2024 – Present ,*India*

- Achieved 90% satisfaction rating for the food delivery website using React.js and Node.js.
- Optimized database queries, leading to a 100% improvement in data retrieval times.
- Completing 4 major features, enhancing website functionality and user experience.
- Implementing efficient coding practices, resulting in cleaner and more maintainable code.

PROJECTS

Tic-Tac-Toe Game -[Github](#)

- Developed a Python-based Tic-Tac-Toe game featuring dynamic color-coded text, animations for game events, and intuitive user interaction, enhancing the classic game experience.
- **Tech stack used:** Python, ANSI Escape Codes.

Restaurant Website- [GitHub](#)

- Fully responsive design ensuring compatibility across various devices.
- Aesthetic layout with a focus on user engagement and accessibility.
- **Tech stack used:** HTML, CSS, Bootstrap.

Admin DashBoard - [GitHub](#)

- Developed an admin dashboard utilizing advanced React practices, including optimized folder structure, hooks, and refs.
- Managed complex state with React Context API, and integrated Syncfusion components for building a robust, interactive interface.
- This Admin Panel includes one Dashboard, Three Pages, Four Apps, and Seven fully functional charts!
- **Tech stack used:** React.js, TailwindCSS.

Music Player - [GitHub](#)

- Developed a Spotify clone using React, leveraging styled-components for custom styling and advanced state management with React Context API.
- Integrated Spotify API for real-time data fetching and user interactions.
- Utilized React hooks and Axios for asynchronous operations and optimized state updates.

Tech stack used: React.js, Styled-components, Axios, React Context API, Spotify API
